GARDEN GROVE UNIFIED SCHOOL DISTRICT
INFORMATION Technology DEPARTMENT

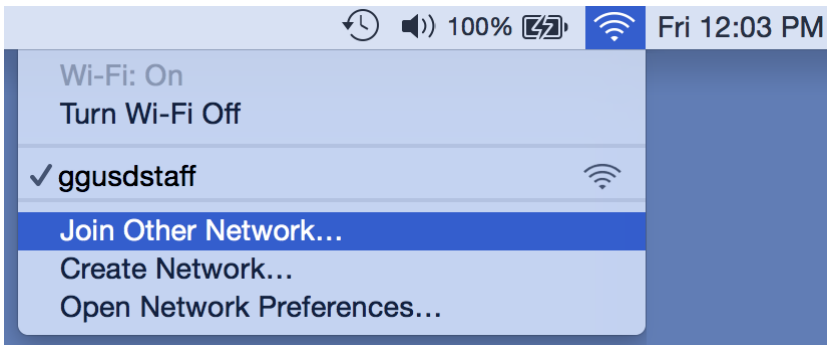
Connecting a Personal Macintosh Laptop to the District Wireless Network

Available at
http://nac.ggusd.us

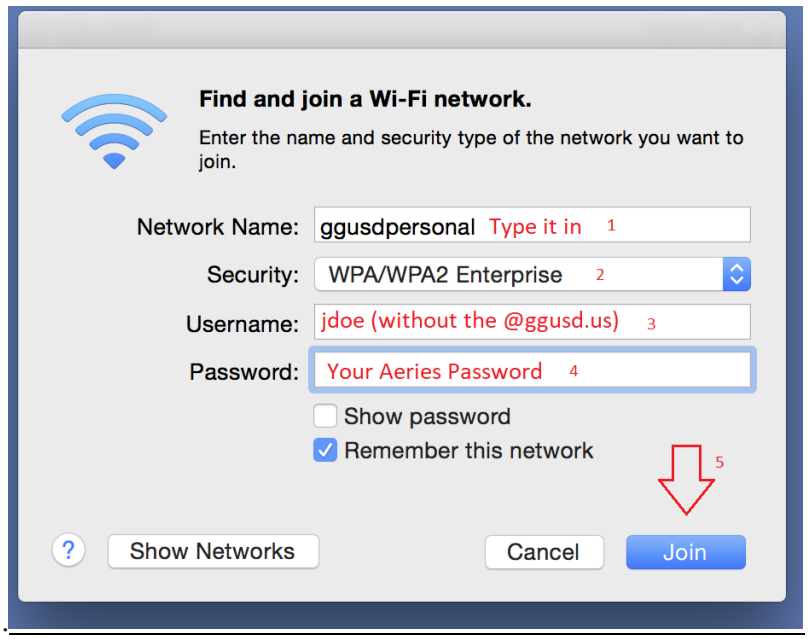
Please visit http://nac.ggusd.us/ to review the list of approved antivirus software and requirements. The following instructions apply to OSX version 10.10.1 (Yosemite). Other versions may vary slightly.

Joining the Wireless Network

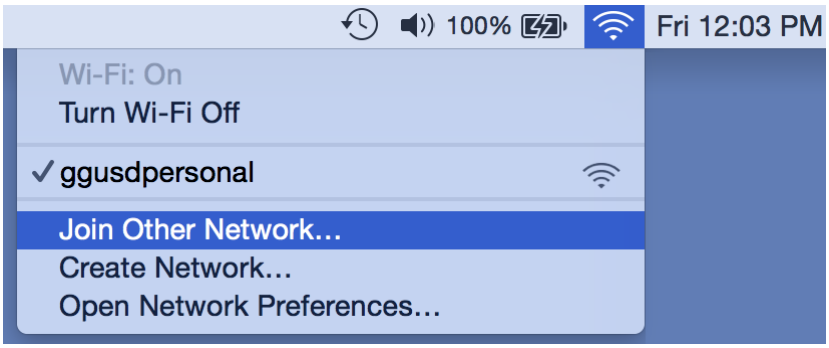
1. Click on the wireless icon and select '**Join Other Network**'.



2. Fill in the information below and click **Join** button.
   - Network Name: **ggusdpersonal**
   - Security: **WPA2 Enterprise**
   - User Name: {your e-mail/Aeries username}
   - Password: {your e-mail/Aeries password}



3. Verify that you are connected to the wireless network **"ggusdpersonal."**



Connection Completed!

**Please note that when your Aeries/Email password changes, it is recommended that you also change it on your Mac by deleting the ggusdpersonal profile from your system and follow these same steps.*
