Retrieve Wireless Ethernet Address from an iPad

Please follow these step-by-step instructions on how to retrieve your wireless Ethernet known as Media Access Control (MAC) address, from your iPad.

From your iPad press the Home button on the bottom center of your device. In the main • screen select the **Settings** button.

A General Settings screen will appear.

iPad 🗢	10:06 AM	1 75% 💷)
Settings	General	
Notifications	About Z	<u> </u>
Control Center	Software Update	>
Do Not Disturb		
	Spotlight Search	>
